

HCD Roadmaker Conveyor Belt

Bitumen Handling Hot Belt

A belt specifically designed for transport of hot asphalt with tailor made Neoprene/Nitrile rubber covers.

Features

- Rubber covers specifically formulated to provide resistance to asphalt and diesel oils
- Available in 3 Ply EP160 4.0 + 1.5 covers
- Good abrasion resistance to scrapers used in the industry

Benefits

- Last longer than most alternatives rubber belts when exposed to asphalt and diesel oil
